

**Free E15
:60**

Americans aren't like other people. We're born into a society where we are free. Free to voice our opinions. And free to disagree.

But most of all, we're free to make up our own minds. To make our own decisions. We're free to choose what fuel we put in our cars and trucks.

E15 with 15% American ethanol is our homegrown, renewable fuel.

Ethanol is made in our country's heartland. It's lowering our dependence on foreign oil. It's creating American jobs that can never be outsourced. It's pumping billions of dollars back into our economy. And it's lowering the price of gas.

The best part is, E15 was designed to run in your car. It's the most tested fuel in our country's history. And it passed every test with flying colors.

Visit EthanolRetailer.com to learn more about America's homegrown fuel and to find an E15 station near you.

Put a little more America in you tank with E15. And make your freedom count.

Government tested on cars 2001 and newer.
